Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species 1, a perforating tool comprising a liner formed of a mixture of powdered heavy metal and powdered binder metal, as claimed in independent claim 1.

Species 2, the perforating tool comprising a liner formed of heavy metal powder coated with a metal binder formed into a rigid body, as claimed in independent claim 11.

Species 3, the apparatus comprising a liner formed of a mixture of powdered heavy metal, powdered metal binder and a heavy metal powder coated with a binder metal formed into a rigid body, as claimed in independent claim 21.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic to all species.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

2. Upon election of one of the above species, the applicants' must now choose between the following subspecies:

Choose between,

Art Unit: 3641

Subspecies A1, wherein the percentage of heavy metal in the mixture is within the range of approximately 99.0% to 99.98% by weight, claims 4, 17 and 29,
and

Subspecies A2, wherein the percentage of heavy metal in the mixture is approximately 93.0%, claims 10, 16 and 26.

Also choose between,

Subspecies B1, wherein the lubricant comprises powdered graphite, claims 8, 19 and 33,
and

Subspecies B1, wherein the lubricant comprises oil, claims 9, 20 and 34.

3. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 3641

4. A telephone call was made to Peter Schroeder on 11/1/2004 to request an oral election to the above restriction requirement, but did not result in an election being made. Mr. Schroeder was out of town on business.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. The applicants' are advised that a full response to the amendment filed 8/12/2004 will be forthcoming upon a complete response to the above restriction requirement. In the meantime the pending claims remain rejected as per the office action mailed 2/13/2004.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James S. Bergin whose telephone number is 703 308-8549. The examiner can normally be reached on Monday - Wednesday and Friday, 8.30 - 5.30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Carone can be reached on 703 306-4198. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
